

Campaigns take endless amounts of time and energy. When you come to Connolly Printing, no longer do you have to worry about scheduling group stuffing sessions and buying expensive stamps. We can stuff, address and mail your work out under our permits, saving you time, energy, and money.

Provide us with your mailing list and we can put everything together for you, not to mention the money you'll save on printing and design costs. Connolly Printing is a full service printing and mail house, so there are no costly time delays, or courier charges between printer and mail house. Your message goes directly from proof to mailbox, frequently cutting days off delivery times. With our customized options, you can target your mailing list to specific super-voter groups, or a series of issues and avoid costly, full-universe registered voter mailings.
